

# Aqua Run Underwater World 12m

## Introduce an ocean theme in your pool

No need for a snorkel with this Underwater World Run, because it conveniently floats on the water. The obstacle course provides more than enough room to comfortably play on. The 3D objects make it an attractive eye-catcher for young and old alike! Climb, dive, run and slide to your heart's content. This is a water obstacle course offering a variety of fun and challenging obstacles.

## Safety first

For years, JB has developed and manufactured water attractions that can safely be used. The water games we offer are certified in accordance with the NEN-EN 15649:2009 safety and quality standards. We provide an approved inspection certificate, a log book and a clear manual for all water attractions. To ensure the right air pressure is entered, all products come with a Bravo air pressure gauge. The anchor points have to be fastened with appropriate anchoring materials to keep the product in place and to prevent it from getting too close to other objects. This ensures all visitors are safe when they use the obstacle course.

## Strong PVC material

Because we are proud of our products, we set high demands for them. In order to guarantee quality, we always use high frequency welded PVC material of 900 gr/m<sup>2</sup>. The material is strong, colourfast and has a protective coating that is resistant to influences of chlorine and other water properties. The Underwater World Run is easy to clean and durable in use. This item comes with a 1-year warranty.

Purchase the Underwater World Run for a pool and deliver the experience your customers will remember as a fantastic day of water fun!

## Opt for unique inflatable attractions in a grand way!

Do you know why JB has made people around the world jump for joy for over 15 years now? Because our expert team of designers, developers and logistic staff supply unique inflatable attractions in a grand way! Our customers are, therefore, assured of our professional service and delivery. That is why they tend to call us 'creators of greatness'.
