

# Blower REH-1,5 E

## REH-1.5 E: special blower for mid-size and large bouncy castles

Are you looking for a blower that is particularly suitable for the mid-size or larger bouncy castles? This REH-1.5E blower included in our product range has many major advantages of which the main one is its large capacity. In other words: it provides a high air supply, higher than the average blower with the same wattage.

The blower capacity is 1.35 kW.

### Powerful blower, weather- and windproof

This lightweight and high-efficiency blower has even more advantages. In addition to being easily stackable, it is also tested for its water-resistance. These tests have shown it can even be used during heavy rains.

In short: if you are looking for a blower that can easily be used to inflate bouncy castles - and keep them inflated - in all weathers? Our REH-1.5E is the device for you.

### Premium quality blower with a 1-year warranty

Only top products, that is what JB-Inflatables is known for. Not only does this apply to our inflatable attraction, but also to tools like this blower. Therefore, we comfortably provide you with a 1-year warranty for this product.

### JB: 15,000 enthusiastic customers in 15 years

In the past 15 years, JB has delivered items to help 15,000 people around the world celebrate festive occasions. Our team of designers, developers and logistic staff always want to deliver a unique experience. Moreover, with us you are always assured of service and a high-quality delivery! It is for good reason people call us 'creators of greatness'!
