

# Mechanical Rodeo Bull

## Yee-haw, cowboy!

Challenge your customers with this cool mechanical rodeo bull. Who has the most stamina and stays on the bull the longest? This is quite an art, because this wild bull does not just let anyone sit on its back. The rodeo bull will do anything to get the cowboy off, so let the fight begin!

## Easy to transport

With a size of 70 cm wide and a weight of approximately 100 kg it is possible to get the bull through every corridor and door at any location. These dimensions also ensure that the bull can be completely transported with a delivery van. Ideal! The rodeo bull comes with six lightweight support legs, making the bull very stable. The bottom of the legs are equipped with rubber caps, to prevent movement during use. In addition, every rodeo bull comes with a handy handle and wheels. The wheels are easy to connect to the bull. This gives the user better control when moving the bull over uneven surfaces.

The control box weighs 17 kg and comes in a handy case.

The control box can be work both automatically and manually, being controlled by operator. Our version is provided with:

- Joystick, with 8 different settings / positions
- Individual settings, for personal setting
- Main switch
- Emergency stop
- 3 automatically set programs
- 1 time result of bull-rides
- 1 time result of the record bull-rider
- (possibly expandable with sound system)

The mechanical rodeo bull is delivered including control box, certificates and a clear manual. We deliver the rodeo bull with 1 year warranty. Everything has been thought of, so it is complete for a great experience! Buy the mechanical rodeo bull and give your customers an exciting and hilarious experience.
