

Airfloor 9x6

Airfloor

The Airfloor is a mat with a larger format than the Airtrack. Due to its large square format, the Airfloor offers more space for sports such as gymnastics, free running and various martial arts.

Inflatable

The Airfloor is an inflatable mat that is inflated by means of a blower. Because the mat is airtight, there is no need for a constant airflow to keep the mat pressurized. The mat maintains its pressure for hours and is not accompanied by the constant noise of a blower. The pressure of the mat can be regulated by means of the valve on the side of the mat. The mat comes with a pressure gauge. The pressure gauge measures exactly the pressure inside the track, a perfect pressure is important for the correct use of the mat. The pressure gauge is connected to the second valve of the track when the mat is inflated.

Due to its structure and firm but soft top, the AirFloor is a great equipment for all sorts of training sessions.

Convenience

There is great convenience in using the Airfloor. The mat is easy and quick to place by one person. After use, the mat is easily deflated by means of the supplied blower, after which the mat can be folded into a compact package.

Inflated product

Length	30ft
Width	20ft
Height	1ft

Specifications packaged product

Weight	160kg
Amount of packages	1x

Setup / dismantling

Setup/Dismantling duration	approx. 10 minutes
Persons to setup/dismantle	2 persons
Blowers	Bravo OV6 Luchtpomp x 1
Weight per blower	Bravo OV6 Luchtpomp = 1,3 kg

General

SKU	30.001.001.201
Warranty	2 years warranty
Service	2 Year service
Including	Logbook/manual Repair kit Anchoring material Blower(s) Transport bag
