

Double Zigzag Pirate

A double lane water obstacle course

Spectacular! That describes this double lane pool obstacle course best! The competition element is tough, because opponents start in pairs and have to reach the other side of the run as fast as possible. Alas, not everyone will make it to the finish line... they will have ended up in the pool instead. Hilarious, that's for sure! Who will be crowned the winner of the Double Zigzag Pirate?

Safety is always a priority at JB

For years, JB has developed and manufactured water attractions that can safely be used. The water games we offer are certified in accordance with the NEN-EN 15649:2009 safety and quality standards. We provide an approved inspection certificate, a log book and a clear manual for all water attractions. To ensure the right air pressure is entered, all products come with a Bravo air pressure gauge. The anchor points have to be fastened with appropriate anchoring materials to keep the product in place and prevent it from getting too close to other objects.

Strong PVC material

Because we are proud of our products, we set high demands for them. In order to guarantee quality, we always use high frequency welded PVC material of 900 gr/m². The material is strong, colourfast and has a protective coating that is resistant to influences of chlorine and other water properties. The double lane Zig Zag Pirate obstacle course is easy to clean and durable in use. This item comes with a 1-year warranty.

Purchase this double lane Zig Zag Pirate pool obstacle course and deliver an experience your customers will remember as a fantastic day of water fun!

Proud of our unique and grand inflatable attractions!

Do you know why JB has made people around the world jump for joy for over 15 years now? Because our expert team of designers, developers and logistic staff supply unique inflatable attractions in a grand way! Our customers are, therefore, assured of our professional service and delivery. That is why they tend to call us 'creators of greatness'.
