

Discoball

This DMX-controlled LED Magic Jelly DJ Ball creates an amazing dual light effect. Its LED technology, 82 bright beams and a luminous bulb of opal glass create a ball that changes colour, with a bulb colour matching the effect. The stroboscope flash frequency and brightness are adjustable. It is supplied in a plastic housing and is perfect for use in discos, bars, clubs, cafes, etc. It has Plug & Play installation, so no external controller is required. With 6x 3W RGB LEDs and 6 DMX channels, pre-programmed shows and sound-controlled programmes with adjustable sensitivity you can be sure it will be a good party!
